Welcome to Shepherd's Hope Neighborhood Health Center!

Volunteer Now!

Shepherd's Hope is a Christian medical, dental and health education ministry currently serving the South Midtown area of Little Rock. We have three main priorities through which we hope to serve the community. First, to provide affordable routine healthcare, acute dental care and vision care to uninsured neighborhood residents who may otherwise not have access to quality care. Second, to learn about the life needs of those in our neighborhoods and, along with our partners, provide education or coaching to better equip individuals and families. And finally, to share the love and hope of Jesus Christ without bias to faith preference or affiliation.

Partner Now!

The Shepherd's Hope team is made up of Little Rock's finest medical, professional, clinic administration and support volunteers. But, we still need YOU.

Click the Volunteer Now button and check out some of our volunteer needs - and consider serving with us just one night each month.

You can also check out needs we have for medical and dental supplies, and medical services - specialists referrals for example are essential to our work. Please partner with us!

Our Mission

We are a Christian ministry serving the Kingdom of God by meeting the routine medical, health education and spiritual needs of Little Rock neighborhoods by partnering with volunteer medical, business, community, clergy and teaching professionals.

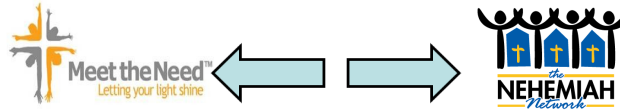

"Showing the love of Christ by ministering to those in need."

Mobilize Your Church to Serve the Community

We know you'd love for your church to be doing more to serve your community in Jesus' name.

We know you'd like to increase your church's impact and see your ministry grow as you touch more and more lives.

Be The Hands & Feet of Jesus

Your church provides a “window” to the outside world, showing members live opportunities to serve at your church, at local ministries or local families in ways that fit their skills and interests.

ISSUE	SOLUTION
1. Churches, Pastors and Staff are over-loaded in taking calls, posting needs, figuring out who can help and making sure it gets done.	1. Take administrative work off of the church staff, so the church can do more to serve.
2. Therefore, church members aren't provided with enough avenues to serve that fit their skills and interests.	2. Members find numerous volunteer opportunities, inside or outside their church, on their church's website

More Benefits To Your Church

- Grow and you reinvigorate your church
- You decide what needs are seen on your website
- Easily support your volunteers for serving inside or outside your church
- Prevent people from taking advantage of your church's generosity through the connection & cooperation of churches

Members: can go to your website to learn how they can serve.

Your Church Will Be at The Forefront With Cutting Edge Technology

“This is a great way to see what other ministries are doing in our community, as well as make connections with them to work together at times when really needed.”

Fred Harris, Life Abundant Ministries

How it works

You are the “Face” to the community

Meet the Need is behind the scenes...your community and congregation learn about your heart for ministry.

- Meet The Need runs through your web site...and it will look like you built it!
- Your members have their own personal dashboard.
- Support material available for sharing.
- We fully license all of our software to you.

“Meet The Need has proven to be one of the most useful ministry tools available for special event volunteer management.”

Feed the Bay, Director
